

## RESPONSE TO THE COVID-19 PANDEMIC IMPACT

In all countries where we operate, our employees are safe and well. Throughout this extraordinary period, our people have shown their resilience, strength and deep sense of duty towards protecting themselves, their colleagues, families and communities.

We continue to vigilantly monitor the situation and are working collaboratively with the relevant authorities in all locations to ensure we fully comply with government directives and containment measures regarding the COVID-19 pandemic.

As the situation is constantly evolving, it would be inappropriate to comment on our operations in any jurisdiction.

For information on what is happening at AG&P's offices and sites, please contact our HSE department on [hse.yard@agpglobal.com](mailto:hse.yard@agpglobal.com)
